VocalizeIoT

--WEBINAR SERIES--

CONNECTING IOT TECH SKILLS WITH OPPORTUNITIES

Empowering TVETs, higher learning institutions, through IoT innovation and industry collaboration

Jared K Nganyi
IoT Manager, Member of EBK, IEK, IEEE, KETRB

Walter Oyugi
Research Scholar, @iLabAfrica Centre

Bob Afwata
Educator, RnD Director Focuslense Electronics

Maxwell Opondo
Robotics mentor & CEO, Zero Bionics

TOPICS OF DISCUSSION

IMPACT OF IOT IN TVETS

Session 1: 'From Tools to Tech – How IoT is Powering the Next Generation of TVETs' by Jared Nganyi

Session 3: 'The Connected Campus - Building IoT Ecosystems in learning Institutions' by Walter Ouma

BUSINESS POTENTIAL OF IOT

Session 2: 'IoT Careers of Tomorrow – From Class Projects to Industry Impact' by Maxwell Opondo

Session 4: 'Smart Classrooms, Smarter Skills - Embedding IoT in Vocational Training' by Bob Afwata

DATES & TIME

6th Nov – 11th Dec 2025
Thursdays: 4:00PM – 5:00PM
Venue: Online
Link: meet.google.com/woj-xkyv-teo

FREE REGISTRATION

VocalizeIoT WEBINAR SERIES

Connecting Skills, Systems & Opportunities through IoT

An Existing Challenge

The Federation of Kenya Employer's survey shows that youth who form 35% (percent) of the Kenyan population, have the highest unemployment rate at 67%. This number is expected to drastically increase by 2035 if no interventions are done. The Kenyan economy creates thousands of new jobs annually. However, the vast majority are informal sector jobs, leaving few opportunities in the formal sector for graduates from institutions. In addition, digital divide remains a threat to Kenya's economy as many institutions lack access on the latest trends of emerging technologies like that of IoT (Internet of Things).

A Promising Solution

TVETs are the backbone of Kenya's technical and vocational training ecosystem. As digital transformation reshapes industries, the VocalizeIoT Webinar Series offers TVET trainers, administrators and students an opportunity to be at par with the latest technological advancement in the 21st Century. This will be done by equipping participants with insights on how IoT technology adoption can strengthen skills, learning experiences, employability and entrepreneurship.

Why TVETs Should Attend

- To understand how IoT is transforming the technical training and industrial processes.
- To learn how to integrate IoT modules into your curricula and workshops.
- To be connected directly with innovators and educational technologies shaping the future skills landscape of Kenya and Africa.
- Access to open IoT learning tools and resources that would enrich classroom delivery.
- Empower your institution's readiness to embrace digital transformation with IoT technologies.

Webinar Highlights

This **four-part** webinar series features brief, insightful, engaging sessions from 6th November to 11th December from 4:00pm – 5:00pm each designed to spark collaboration and practical learning.

	WEBINAR SESSION	DATE (Thursdays)
1.	"***From Tools to Tech - How IoT is Powering the Next Generation of TVETs***" by Jared K Nganyi, EBK, IEK, IEEE, KETRB (IEEE IMAS Committee member)	6th Nov 2025
2.	"***IoT Careers for Tomorrow - From class projects to industry impact***" by Maxwell Opondo, award winning robotics mentor and Zero Bionics CEO	20th Nov 2025
3.	"***The connected Campus - Building IoT Ecosystems in learning institutions***" by Walter Ouma, Research Scholar from @iLabAfrica, Strathmore University	27th Nov 2025
4.	"***Smart Classrooms, Smarter Skills – Embedding IoT in Vocational Training***" by Bob Afwata, IoT Educator and RnD Director from Focus Lense Electronics Ltd.	11th Dec 2025

How to join the webinar

Participation is free of charge. To secure your spot, click the link below to register today!

VocalizeIoT WEBINAR SERIES

Connecting Skills, Systems & Opportunities through IoT

About Us

VocalizeIoT is a project focused on capacity building of Vocational Education and Training (VET) centres in Kenya and Tanzania by providing skills in the field of Internet of Things (IoT). This project aims to empower youth and meet the demands of local industries undergoing digitization. This 4-part webinar series explores how IoT is shaping the future of TVET education, institutions, entrepreneurship and smart innovation.

It is run by a consortium of 6 (six) members: WaziUp, Strathmore University, ENGIM, TNNP (The Nairobi National Polytechnic, formerly NTTI) VETA Kipawa, DTBI who operate from Kenya, Tanzania, Italy, Germany, South and West Africa.
